Description of Problem

Please include a detailed description of the issues, as well as a description of and a copy of any professional studies, citations or reports from government entities, recommended solutions, and any cost information or estimates. If additional space is needed, please attach.

Painting of exterior steel canopies, columns, and beams. Exterior steel has not been painted since 1995 when the school was constructed. There are some areas that are starting to show signs of rust. Due to the design of the steel and the amount of square footage an outside vendor will be needed to complete the project. An estimated dollar amount would be \$550,000 to complete.

Project Category: Surfaces

Are any of the above-described issues in buildings or part of buildings that are leased to another entity, including a district sponsored charter school? N
